

M.B.B.S FROM SOUTH EAST UNIVERSITY, P.R CHINA

Southeast University (SEU), founded in 1902, is a comprehensive key university featured by her strong engineering faculty, directly under the administration of MOE (Ministry of Education, China). Among more than 2,000 higher-learning institutes in China, SEU is one of the oldest and top 20 for its more than a century's academic excellence and whole-person education. The disciplines of SEU covers the levels of bachelor, master and Ph.D, and the fields of science, engineering, medicine, humanities, law, philosophy, education, economics, management, art, etc. There is a current enrollment of 32,000 full-time students, including nearly 1800 international students on three campuses covering a total area of 447 hectares. According to the ranking system of US News, SEU enjoys the 22nd position among the global engineering universities in 2015. In MOE's national discipline assessment of 2012, SEU's disciplines of biomedical engineering, transportation engineering, artistic theory rank No. 1, the disciplines of architecture, electronic science and technology, landscape architecture rank No. 2, the disciplines of civil engineering, urban and rural planning rank No. 3, the discipline of communication and information engineering ranks No. 4, the discipline of instrument science and technology rank No. 5, the discipline of power engineering ranks No. 6, the discipline of public health ranks No. 7.
